

Welcome to all CASC swimmers, parents, and carers—both returning and new!

As highlighted in other reports, CASC has had another incredibly productive year, with a high volume of membership enquiries, swim trials, and waiting lists for most squads already full. This continued growth has contributed to a stable financial year for our club.

A heartfelt thank you goes to our dedicated coaching team, officials, team managers, other volunteer helpers, and committee members for their unwavering commitment throughout the year. Your time and effort are truly invaluable.

We also extend special thanks to our Club Co-Chairs, Marie Philips and Mariana Turner, whose tireless dedication has been instrumental in leading the club. Their relentless efforts in liaising with Swim England, coordinating with various pool operators, and most recently negotiating the renewal of our contract with Whitgift—alongside our fantastic Swimming Secretary, Emma Brown—have ensured the club's continued success.

Behind the scenes, the Committee has worked diligently, meeting regularly to organize training opportunities and galas. A huge thank you to Didier Sorel (Membership Secretary), Sophie Golledge (Competitions Secretary), Mike Garvin (Treasurer), David & Katy Dolling (Arena League coordinators), Mel Rumf & Hollie Sims (Volunteer Coordinators), Mel Rumf (Trophy Secretary), Lucy Ashdown-Parkes (Swim School Administrator), Chris Martin (Water Polo Secretary), Marianne Rooke-Allden (Masters Secretary), Alan Turner & Chris Diver (Gala Technical Support) and our Club President, Nick Hallam, for your ongoing commitment and support.

While we say this every year, it remains absolutely true—CASC cannot run without its volunteers! If you have any time to spare, please consider getting involved. No role is too demanding, and every contribution makes a significant difference in supporting our swimmers and the club.

Thank you all for being part of CASC—we look forward to another fantastic year ahead!

Simone Kelly & Karlene M Fraser

CASC Co-Secretaries
