

Masters Report 2024/25

The Master's section of Croydon Amphibians has had a relatively quiet 2024/25 so far with our main competition of the year – the Surrey's - taking place on 28 June 2025. We'll be defending our title of top overall club from 2024.

Over the last 12 months we've had representation at the following events:

- Berks and South Bucks Open meet
- South East Regionals (SC)
- South East 1500m (LC)
- London Regionals (LC)
- Erith and District Open meet
- British Masters (LC).

We also saw one of longest serving members, Frances Penwarden, hang up her goggles in January. Frances has been one of our most successful swimmers winning medals not only at Nationals but internationally at European and World events. She also held the European short course record for 200m breaststroke in the 50-54 year age group in the early 2000's. We wish her all the best.
