

Funding Applications June 2024

Thame Swimming Club

“Thame Swimming Club (TSC) is in need of new competitive lane ropes. We will need a minimum of 4 ropes for our 5 lane pool at Thame Leisure Centre. Our current lane ropes are in poor condition.

It is believed they are the original ones bought when the club was established 15 years ago. The plastic is now brittle. We have been fundraising and successfully got £620 from a recent Swimathon.

TSC worked in partnership with The Rotary club with the Santa Sleigh and received a cheque for £800.

We have been in contact with GLL (Thame) who had also requested additional funding from South Oxfordshire for new lane ropes. This has been declined by the Council.

The lane ropes cost £790 each. I have an email from GLL confirming this as they would order it through their approved company Malmsten)- Malmsten Racing Lane- Standard 100mm discs 25m.

The total for the lane ropes would be £3160.TSC has raised £1420.

The lane ropes are not used by the school.

Thame Swimming Club is asking for £1740.”

Note: Thame SC received £295 in January 2018 for land -based training equipment with nothing since then. There have not since 2017 been any funding requests from clubs for lane ropes.
