

# BECKENHAM SWIMMING CLUB

Affiliated to the Swim England, Swim England London Region and KCASA  
Founded 1893

## Beckenham Swimming Club Changing Room Policy (Oct 2020)

### 1. Introduction

- 1.1 Swim England has been asked by many clubs to clearly state what responsibility the club has for young members under 18 years in changing rooms before, during and after training or an event or competition.
- 1.2 Under the duty of care to safeguard children, the club has a responsibility for the wellbeing of children in the changing rooms.
- 1.3 This does not mean that parents have no responsibility, but parents are often not in the pool complex at the time when children are swimming and training to exercise their duty of care. For this reason, clubs must be clear to parents under what circumstances they require parents to remain at the pool throughout a session. For example, with young children who require assistance with changing, or for those children with a disability who may require additional help that the club is unable to provide.

### 2. Responsibility during a club session

- 2.1 The view of Swim England is that while a child is training or being taught, they remain under the responsibility and duty of care of the person who is teaching or coaching them at that time. If a member goes out of the pool area, the coach or teacher should be aware of this. If the child fails to return within a reasonable time, or appears to be upset upon leaving the poolside, the coach/teacher should request a suitable official to check on them. It is best practice for two persons to look for the member (the second person could be a senior member or a parent).
- 2.2 If a complaint is received about an incident that has occurred in the changing room between a member of the club and any other person, the club has a duty to act upon that concern as appropriate. If the incident involves a person not associated with the club, the pool manager should be made aware and consideration given as to whether the statutory agencies need informing.
- 2.3 Swim England is currently working with the CPSU, ASA Facilities Team and commercial facility providers, to try to encourage pool providers across the nation to separate the sexes of school-age children in mixed changing villages.
- 2.4 We strongly recommend that clubs engage locally with pool providers to create simple barrier systems, or make use of natural barriers between cubicles (e.g.lockers, etc.) to enable mixed changing villages to be used as separate changing areas for either sex. This is likely to help prevent the crime of any covert use of cameras or phones, etc. by one person on another of the opposite sex.

### 3. Information for parents regarding changing facilities

- 3.1 Ensure that parents are made aware that changing facilities at venues may be shared by both club members and members of the general public.
- 3.2 Ensure parents are made aware of the type of changing room in use i.e. separate for male and female or mixed changing villages.

- 3.3 Ensure that the behaviour of members in changing rooms is part of the member's code of conduct and any behaviour contracts, where appropriate.
- 3.4 Masters (adult) members should be encouraged to use their own area wherever possible, when changing at the same time as children. Where this is not possible adults are to be reminded to change in an appropriate fashion, and to be mindful that they are changing with children.
- 3.5 Ensure parents are aware that they should not be in the changing room whilst the children are changing, unless their child is of an age where help is required from parents or if the child requires additional specific assistance. This is generally at an age that is stipulated by the pool hirer, usually seven or eight years of age. In such circumstances, the parent must be the same gender as the child, unless the facility has family changing facilities or is a mixed changing village.
- 3.6 When organising an event where other clubs or schools are involved, ensure that parents and competitors are advised (via the event information) whether or not the facilities are likely to be open to the general public at any time during the event.
- 3.7 Swim England do not advise adults to supervise changing facilities as that places them and the children at risk of allegations of improper behaviour and a precedent that could potential lead to children being put at risk.
