## Swim England President

---

**Jim Wilks**  
**President**

Jim has been involved in swimming for more than 35 years. Having never been a competitor himself, he came to realise the dedication it takes to achieve when his sons showed an aptitude for swimming, with one representing England and Great Britain. Watching them progress, Jim saw how sport instils enormously positive attributes in the developing child and the source of strength and support it can be for families and communities.

In 1987, Jim started his journey in swimming administration at Warriors of Warrington. First being responsible for fundraising and social activities before various other positions and becoming chairman between 1998 and 2004, remaining President to the present day.

Jim became a Technical Official in 1988, attending numerous local, county, regional, national and international events over the years, including the 2002 Commonwealth Games in Manchester. In 2004, Jim was accepted on the pre FINA Starter list and invited to take up the position of FINA Starter in 2006, serving the two terms permitted. Jim has trained, developed and mentored numerous officials at all levels bringing great satisfaction, pleasure and friends along the way.

Liverpool and District Swimming and Water Polo Association asked Jim to join closely followed by his election to the Cheshire County Swimming & Water Polo Association. In 1995, he became a Northern Counties Executive as well as an ASA Council delegate.

Jim was the first President of the North West Shadow Board, assisting in the set up of the North West Region before becoming a Life Member in 2016 and remaining a director of Swim North West Limited. Jim is a Life Member of Liverpool and District Swimming and Water Polo Association, having previously been president, as well as currently being Chairman and Past President of Cheshire. Whilst serving on the executive committees, Jim focused on governance, supporting clubs in their management and development at all levels, which is a passion of his.

Jim is looking forward to promoting the values of Swim England during his year in office, encouraging swimming and its disciplines at all levels. He is particularly honoured to be President in the Queen's Platinum Jubilee Year and to represent Swim England at the Commonwealth Games in Birmingham, which hold great significance for Jim as his grandfather was born in Smethwick, where the Aquatic Centre is.

Although Jim's children stopped swimming many years ago, their sporting experiences continue to colour their lives which is why he places such importance on the development of grassroots swimming.

Finally, Jim wishes all the aquatic athletes participating in the Commonwealth Games and Swim England's national events, across all disciplines, every success.

### Who is SwimLine for?

This service is provided for anyone involved in swimming, including children and young people who believe that the welfare of a child is at risk. This could be neglect or abuse, bullying or fear of someone, or anything that is worrying you and you don't know who to discuss this with.

### Who will take the calls and what happens?

When you ring you will hear a message. This will explain that if you wish to speak to someone urgently – or it would not be convenient or safe for someone to call you back – you can press a number to transfer straight to the NSPCC Child Protection Helpline. This will be answered by trained and experienced counsellors who will advise you and will act to protect children.

If there is no problem with someone calling back and you wish to speak to someone who understands swimming, you will need to leave your telephone number and a time convenient for the Swim England Safeguarding Team to ring you back. If there is an issue which causes concern, Swim England will act to protect the child.

### Other things you should know

SwimLine calls are free and do not appear on itemised bills unless the call is made from a mobile phone. SwimLine does not use the 1471 code or any other call return or call display facilities. If you leave a message we aim to ring back during the next working day. If you phone over the weekend we will aim to contact you on Monday.

**You can call SwimLine on 0808 100 4001.**

**You can call the NSPCC Child Protection Helpline direct on 0808 800 5000.**

This line is open for 24 hours each day and calls are free of charge.

**If you have a Textphone you can call the NSPCC Textphone on 0800 056 0566.**

Comments and suggestions on how we can improve this service are welcome.

## **Certificate of Exception (Formerly Certificate of Swimming Disability)**

Updated in 2021 from the 'Certificate of Swimming Disability' the purpose of the certificate is twofold:

A number of swimmers have impairments that prevent them from competing against non-disabled competitors under the agreed technical rules. A 'Technical Exception' can be applied for to ensure that disabled competitors do not get disqualified for performing a stroke incorrectly due to their disability and who:

- Have not yet been classified;
- Do not wish to undergo classification;
- Do not fit the Physical Classification System.

Technical exceptions will only be granted to swimmers who are Swim England members with a permanent disability and not to swimmers with a short term incapacity.

### **OR**

A number of swimmers may experience circumstances that preclude them from complying with swimwear regulations. Examples of this include: faith considerations, gender reassignment or the taping of medical devices.

In such instances a 'Swimwear Exception' can be applied for to ensure that competitors do not get disqualified or prevented from competing.

The certificate is valid for two years and will need to be reapplied for.

To obtain a certificate a swimmer should download the application form from the Swim England website: [www.swimming.org](http://www.swimming.org) and return to the address stated.

A laminated certificate will then be issued for presentation to the referee before the start of a race.

**No disability swimming record can be claimed when using this certificate for a technical exception.**

**For the purposes of implementation those swimmers still holding a valid 'Certificate of Swimming Disability' will be able to continue using it until such time as renewal is required.**

## Regulations for the Payment of Expenses by Swim England

---

The payment of expenses shall be subject to the authorisation of the person responsible for the finances of the activity, hereafter referred to as the designated officer.

The organisation requires that all claims submitted are accompanied by receipts showing the payment, and where appropriate, any VAT with a VAT registration number. (For this purpose debit and credit card slips are not acceptable.) Claims submitted without receipts may result in a delay in payment.

For the guidance of members, the following expenses shall normally be considered for payment:

### Essential travel for business purposes

1. Rail travel and public road transport: standard fare or discounted fares that are available and suitable.
2. Taxis: actual fare, provided that reasonable public transport is not available, start and end destinations to be identified on the expense form, to comply with HMRC recommendations.
3. Air travel: Economy class or lowest prevailing fares available.
4. Private car:  
Up to 10,000 miles – this will be subject to HMRC Guidelines.

### The following conditions apply to these rates:

1. The rates are in line with HMRC approved mileage rates for use of a private vehicle on company business. The decision of the organisation to move the volunteer mileage rate in line with HMRC rates does NOT imply any employer/employee relationship between the parties. The organisation's mileage rate is intended to cover travel expenses incurred whilst undertaking voluntary activity on behalf of the organisation.
2. The organisation does not take any responsibility whatsoever for the tax status of volunteers with HMRC. This is the sole responsibility of the individual. Specifically, should a volunteer claim more than 10,000 miles at the recommended HMRC guidelines from both their ordinary employment plus any organisational and other volunteer activity, the volunteer is responsible for the tax position arising. The organisation does not undertake to log the total mileage of its volunteers – only that mileage incurred on organisation's activity.
3. Economy class air travel by volunteers may only be made by prior agreement and must be booked via the organisation's office.
4. Assembly costs for Team staff and athletes.  
Standard class or discounted rail fare from normal training venue to assembly point and return. Internal flights may be arranged at the discretion of the office for swimmers and athletes.

Mileage claims will be checked against a current route planner. Diversions, alternative routes etc. must be denoted on the form and the reason for the diversion etc. stated. If the route involves a several stage journey each individual leg of the journey must be recorded.

### **Accommodation – excluding National Events**

Where overnight accommodation is necessary, it should, where possible, be arranged through the Swim England office or a designated officer. Payment of expenses shall be against actual costs incurred. Normal reimbursement for the value of an evening meal is as per the current guidelines held by the Chief Financial Officer.

### **Accommodation – National Events**

Volunteers may be required to share accommodation or pay the single supplement themselves or make a contribution to the cost of accommodation. Reimbursement for the value of an evening meal is capped at £15.

Expenses claimed in excess of these guidelines must contain a note explaining the reason for the difference together with a bona fide receipt.

When anyone travels outside Great Britain, at the behest of, or under the control of the organisation, the travel arrangements will be made and paid for by the organisation.

## Masters Swimming

---

Masters swimming is competitive swimming for adults. From small beginnings in the 1970s and 1980s this branch of aquatic sport has grown from a pastime for a few into a worldwide movement. The history of masters swimming is brief, the first recorded meet was held in Amarillo, Texas, in May 1970, which attracted 65 swimmers. Gradually the idea that you could swim after the age of 20 spread world wide and World Aquatics introduced a World Masters Swimming Championships meet in 1986, and Masters Swimming formed a major part of the first World Masters Games, held in 1985.

The first masters meet in Great Britain was promoted by Otter SC at the City University pool London, in 1972. The first English championships were held at York in 1981, and the first GB Masters Championships were held at Port Talbot in 1987, the same year as the first LEN European Masters Championship, held at Blackpool.

Masters Swimming in England is promoted through the Masters Working Group, which reports to the Swimming Leadership Group. Each region has a Masters Committee and a Masters secretary who, between them, promote masters swimming in the eight regions. Many, though not all, counties also promote competition within their county areas.

### **The general format of Masters Meets is similar the world over:**

- events are swum either as graded heats (with swimmers arranged from slowest to fastest with no age consideration) or, in some major competitions, in heats arranged by speed within age groups.
- age groups are the standard five-year groups starting from 25–29 years. Many competitions, including the Swim England and British Swimming Championships, also incorporate a senior age group which is 18–24 years.
- records are maintained for all standard events in both 25 and 50 metre formats.
- annual top 10 ranking lists are compiled on a British, European and World basis.

### **The Masters working group promotes:**

- the annual Swim England Masters Championships.
- the postal 'T-30 Challenge'.
- the Inter-Counties Competition. The overall result is obtained from the performances achieved in four separate regional heats: North, Midlands, South East and South West.
- the annual Swim England National Masters Open Water Championships will have events of 1.5k and 3k for all age groups.

The standard of swimmers at the leading edge of masters is extremely high, with some former internationals swimming faster than they did in their elite days. Masters competitions are not confined to the former elite; participation, enjoyment, and health are the three major strands of Masters Swimming.

### **The concept of adult competition has also spread to other aquatic disciplines, with well-established events in diving, water polo, and artistic swimming:**

- Masters diving is from 25 years, with many of our diving clubs currently offer a masters section. We are working towards growing the sport of masters diving within the country.
- Masters water polo starts at the age of 30 years and is currently integrated within the main stream water polo clubs but this could develop more in the future.
- Masters artistic swimming starts from the age of 25 years and has a vibrant community which is growing steadily within this country.

There is also a Masters Committee within British Swimming. At British level there is a long course championship normally held in June, and the Committee also oversees aspects of masters swimming which have a British dimension, such as maintenance of Masters Records (including nominating British performances for European and World records), a central Masters ranking list and the Masters Swimming Decathlon competition.

## The Margaret Davies Trophy

To be awarded annually to a member of Swim England, under the following conditions:

- The Trophy shall be awarded to the winning coach/teacher under the following criteria:
  - divers at the Elite Junior Nationals and National Age Group Finals will have their total event score on each board, averaged (total score divided by total number of dives performed). The winner of the Margaret Davies Trophy shall be the coach who accrues the most points when all the averaged scores are added together for their divers at both events. The score from the diver's last performance will be counted, therefore if the diver makes the final, that score will be counted, if the diver does not progress to the final, the preliminary score will be counted (in all circumstances, it is the 'full list' score which is used for calculations).
  - if a diver performs one or more dives in the final and withdraws, their score from the final will still be averaged over the number of dives they should have performed, if a diver progresses to a final, but does not compete, their preliminary score will be counted.
- in the event of a tie recipients shall hold the trophy jointly.
- in the event of a diver being coached by two or more coaches, it must be decided and indicated on entering the event, which coach will receive the diver's points for this award.
- the Management of the Trophy shall be in the hands of the Diving Committee.
